- **Farming System:** Arable crops
- **Farm vulnerability component:** Varieties
- **Description:**

All crops

Cultivation of different varieties of one crop with phased ripening

- **Comments on sustainability:**

The cultivation of different varieties of one crop with phased ripening spreads the risk of yield loss and leads to more stable yields. With the spread of the ripening, it is possible to react to unforeseen weather conditions.

SUSTAINABILITY COMPONENTS

- GHG emissions
- Air quality
- Soil
- Water
- Biodiversity
- Animal Welfare
- Economic
- Social
- Technical Feasibility
