

- **Climate Risk Region:**
- **Weather event addressed:**

Southern

Summer

- **Farming System:** Livestock
- **Farm vulnerability component:**
- **Description:**

A seasonal movement of people with their livestock between fixed summer and winter pastures.

Extensive livestock systems
Herd management

- **Comments on sustainability:**

Administrative limitations and availability of summer grasslands in the north of Spain are the main constraints for this measures and this movement allows pasture to recovery and reduces the purchase of concentrates in summer
