

- **Climate Risk Region:**
- **Weather event addressed:**

Southern

All

- **Farming System:** Livestock
- **Farm vulnerability component:**
- **Description:**

Make water more accessible to cows to overcome milk losses and heat stress

Dairy  
Feeding strategy

- **Comments on sustainability:**

Making water more accessible to cows means having more drinking points but also strategically positioned to ease access to less dominant animals. It entails higher water consumption but can compensate milk production losses

Implementation · SHORT TERM

## SUSTAINABILITY COMPONENTS

-  GHG emissions
-  Air quality
-  Soil
-  Water
-  Biodiversity
-  Animal Welfare
-  Economic
-  Social
-  Technical Feasibility
